

Please do not interfere with state ability to regulate telemarketers!
Indiana's Telephone Privacy has been an amazing positive impact upon
my household. Because we registered with the Indiana Attorney
General's "No-Call" list, we receive almost NO telemarketing calls!
Used to receive 2-3 per day -- now, only 1-2 all year!
I deeply resent unsolicited intrusion into my home, using a means that
I cannot ignore (ringing telephone, screening calls, how rude!) This
invasion of privacy is worse than 'spam,' worse than junk mail.
Please do not interfere with the excellent Indiana Telephone
Privacy Law!
